

Satellite radio is the greatest thing to hit rural Nevada and the west in a long, long time. It is great to be able to pick up radio everywhere I go in the west.

Satellite radio is a service that I pay for, and I expect to be able to get news weater and traffic information - just as I can on cable television.

I strongly urge you to reject NAB'S petition 04-160. Please keep the signals coming to our rural areas.
